STATISTICS OF CLASS I MOTOR CARRIERS, 1945

INTRODUCTORY STATEMENT

The Interstate Commerce Commission under authority of Section 220 of the Interstate Commerce Act requires the large common and contract motor carriers subject to its general jurisdiction to file quarterly and annual reports.

This summary of annual statistics continues the publication which began for the year 1938 and is the eighth in the series. The carriers' reports have been examined and verified in the Bureau of Motor Carriers and the corrected reports form the basis of the present tabulation.

Motor carriers are divided by the Interstate Commerce Commission for reporting and accounting purposes into classes according to the amount of their annual gross operating revenues as follows: Class I, revenues above \$100,000; Class II, revenues from \$25,000 to \$100,000; and Class III, revenues less than \$25,000. The revenues and other data reported by the carriers relate to their entire operations, including intrastate operations, if any. In some cases, the revenues from the latter operations considerably exceed those derived from transportation in interstate commerce.

No data are available with which to estimate the relative importance of Class I carriers in 1945. It was estimated that in 1943 the revenue of Class I carriers of property represented about 60 percent of the total revenues of intercity and local carriers of property of Classes I, II, and III, and similarly that Class I Carriers accounted for about 80 percent of the revenues of motor carriers of passengers. Revenues of carriers of both property and passengers were omitted in deriving these percentages.

As may be seen from the table of contents, the Class I carriers have been segregated, for the purposes of the present compilation, into three groups: Carriers of property, carriers of passengers, and carriers of both property and passengers. The first two groups have been subdivided to show returns separately for carriers engaged in intercity service and for those engaged in local service. The carriers of property engaged in intercity service have been segregated into common carriers of general freight, common carriers of commodities other than general freight, and contract carriers, operating owned equipment exclusively or principally. Those carriers of property engaged in intercity service operating with owned and leased equipment which reported "Equipment rents-Debit" amounting to 10 percent or more of their total "Operation and maintenance expenses," are shown separately. Of the total of 362 such carriers, 327 were common carriers and 35 were contract carriers.

For the purposes of this publication, carriers of property which derive 25 percent or more of their total operating revenues from local service are classified as local carriers. Passenger carriers reporting both intercity and local and suburban traffic whose average fare is 20 cents or less are classified herein as local carriers. The revenue and number of passengers applicable to charter, sightseeing or special service are not used in computing the average fare per passenger. Carriers engaged exclusively in charter, sightseeing or special service are classified as local, regardless of the average revenue per passenger.

Local and suburban service, property and passenger, is service performed within a municipality and within the trading and suburban residential area adjacent thereto.

Intercity service includes all services operated beyond the limits defined for local and suburban services.

Attention is called, as in previous statements, to the Commission's order of September 21, 1942, effective October 1, 1942. This order provided that payments for "Purchased Transportation," previously charged in total to "Transportation Expenses," shall be charged to "Drivers' and Helpers' Wages and Bonuses," and "Equipment Rents - Debit," if the services are performed by owner operators or private carriers. If the services are performed by motor carriers holding Federal or State operating authority, the payments shall be charged to the freight revenue account. The Commission's order further required that payments to other carriers for performing the reporting carrier's collection and delivery services be charged against revenues and not included, as theretofore, in "Terminal Expenses." Also, a new account, "Local Revenues," was set up effective with the last quarter of 1942, for reporting revenues from local operations which previously had been included in "Freight Revenue -- Common Carrier," and "Freight Revenue -- Contract Carrier."

In addition to the summary tables, abstracts are given of selected items of information for 477 individual carriers of property and 146 carriers of passengers having operating revenues over \$500,000.

In order that all tables relating to a group of carriers would cover the same number of carriers, it has been necessary to omit 33 carriers of property with total operating revenues of \$7,851,399. Of the 33 carriers, 14 transported films or wearing apparel or were oilfield haulers or "driveaway" carriers. These carriers were not required to report the weight of the commodities they transported. The remaining carriers filed reports which were either incomplete or not usable in some respect. Of the 33 carriers, 27 were intercity carriers with revenues of \$6,885,315 and 6 were local carriers with revenues of \$966,084. There were also two carriers of passengers omitted with total operating revenues of \$497,368. One carrier of passengers was omitted because of incomplete data and the other, the Wisconsin Power and Light Company, (Northwestern region), owing to the fact that only a minor part of its operations were motor carrier and its financial and operating data are not comparable with those of other carriers.

Table 46 shows that there were 1,237 common carriers and 180 contract carriers of property which reported ton-miles of freight carried. The revenue, expenses, number of vehicles, vehicle-miles, tons or passengers carried, and fuel consumed are given for these carriers to permit of useful comparisons.

Attention is called, particularly in the case of carriers of passengers, to the fact that data as to intercity traffic and operations are also found in the tables for carriers classified as engaged in local service and that, to a less extent, data as to local traffic and operations are also found in the tables for intercity carriers.

The Greyhound Corporation, a holding and management company which owns the majority of the stock of 18 reporting carriers, also conducts motor carrier operations under the name of Eastern Greyhound Lines of New England (New England Region) and as Teche Lines, Inc. (Southern Region). The data here shown are based on accounting and statistical records maintained by these operating units.

d Deficit or other reverse item.

1/ This table covers all reporting intercity carriers of property. To permit of significant comparisons of various items of revenue, expense, employees, equipment owned, and operation, later tables exclude such carriers as reported "Equipment rents - Debit" amounting to 10 percent or more of total "Operation and maintenance expenses." Such carriers are covered, however, in a separate series of tables (Nos. 35 to 45). Carriers engaged in local service are covered in tables Nos. 47 to 57.

2/ Includes duplication on account of tonnage received from connecting Class I motor carriers.

TABLE 2.--SELECTED BALANCE SHEET ITEMS - COMMON CARRIERS OF GENERAL FREIGHT ENGAGED IN INTERCITY SERVICE OPERATING OWNED EQUIPMENT PRINCIPALLY 1/
BY DISTRICT AND REGION, DECEMBER 31, 1945

Per quart of lubricating oil	80.6	86.2	81.3	79.8	94.9	94.7	70.1	90.9	91.2	127.3	45.5	37.8

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported "Equipment rents - Debit" amounting to 10 percent or more of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

Vehicles-miles, owned vehicles, intercity revenue service:												
Per vehicle per annum	44,103	38,474	27,341	39,689	41,633	61,174	47,131	44,395	42,710	40,669	79,492	52,402
Per gallon of fuel	4.68	4.38	3.75	4.07	5.02	5.64	4.79	5.35	5.80	5.84	4.53	4.11
Per quart of lubricating oil	71.7	91.5	80.7	94.3	91.9	108.8	58.4	84.6	91.1	95.1	83.4	41.9

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported "Equipment rents - Debit" amounting to 10 percent or more of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

TABLE 24.--SELECTED BALANCE SHEET ITEMS - CONTRAOT CARRIERS ENGAGED IN INTERCITY SERVICE OPERATING OWNED EQUIPMENT PRINCIPALLY 1/
BY DISTRICT AND REGION, DECEMBER 31, 1945

Per quart of lubricating oil	92.5	96.5	79.7	84.3	116.3	121.0	77.5	118.0	97.9	134.9	39.1	50.5

1/ This table is restricted to carriers owning all or most of the equipment operated. It excludes carriers which reported "Equipment rents - Debit" amounting to 10 percent or more of total "Operation and maintenance expenses."

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basis figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expense per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

1/ This table is restricted to carriers operating with owned and leased equipment. It includes carriers which reported "Equipment rents - Debit" amounting to 10 percent or more of total "Operation and maintenance expenses." A few of the carriers reported no owned equipment.

2/ Includes duplications on account of tonnage received from connecting Class I motor carriers.

3/ Basic figures include expenses of operating vehicles in intercity and in local services; these expenses are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

Ton-miles - Per intercity vehicle-mile (average load) 4/ ..	8.88	9.69	8.86	8.06	8.46	9.48	6.44	6.15	9.28	7.53	11.71	13.06
- Per ton (average haul) 5/	193	125	182	98	284	141	187	205	298	20	162	168
Average miles - Per owned vehicle per annum	52,046	51,238	52,767	51,752	51,250	70,419	49,530	48,107	72,559	34,945	51,487	46,906

1/ Includes duplications on account of tonnage received from connecting class I motor carriers.

2/ In many instances the ton-miles reported were designated as "estimated."

3/ Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

4/ Average load is based on both trips with load and trips without load and is derived by dividing revenue ton-miles by intercity vehicle-miles.

5/ Average haul is derived by dividing revenue ton-miles by tons of intercity revenue freight carried.

TABLE 47.--SELECTED BALANCE SHEET ITEMS - CARRIERS ENGAGED IN LOCAL SERVICE

d Deficit or other reverse item.

1/ "B" Regular route - Nonescheduled service; "C" Irregular route - Radial service; "D" Irregular route - Nonradial service.

2/ Basic figures include expenses of operating vehicles in intercity and in local services which are not separable. Comparisons of average revenue and expenses per intercity vehicle-mile are therefore subject to qualification, particularly where the local revenue is a large part of the total revenue.

3/ Includes 17,569,379 Driveaway miles.

TABLE 61.--ABSTRACT OF SELECTED ITEMS - INDIVIDUAL CARRIERS ENGAGED IN LOCAL SERVICE HAVING OPERATING REVENUES OVER \$500,000, - 1945

Name of carrier	Number of carriers represented	Total assets (not including intangible property)	Freight revenue		Total operating revenues	Total expenses (including depreciation, operating taxes and rents)	Net carrier operating income	Net income after income taxes	Employees		Number of owned trucks and truck-tractors at close of year		Vehicle-miles in intercity service (with load and empty)		
			Local service	Intercity service					Average number	Total compensation	Local service	Intercity service	Owned vehiclee	Leased vehicles	Total

1/ The amounts shown for retirements of equipment differ to a minor extent from those shown on table 70. These differences are mainly the result of the fact that the latter table is confined to complete units of equipment, whereas this table also includes retirements of other than complete units and adjustments.

TABLE 64.--INCOME STATEMENT - CARRIERS ENGAGED IN INTERCITY SERVICE

d Deficit or other reverse item.

1/ Net income includes dividends receivable from other motor carriers, but dividends payable are charged direct to surplus. Net income for the industry as a whole is thus overstated to the extent of such dividends.

TABLE 65.--OPERATING TAXES AND LICENSES AND PROVISION FOR INCOME TAXES - CARRIERS ENGAGED IN INTERCITY SERVICE

d Deficit or other reverse item

1/ Net income includes dividends receivable from other motor carriers, but dividends payable are charged direct to surplus. Net income for the industry as a whole is thus overstated to the extent of such dividends.
